

List of pneumatic tools

Maibec em+® siding – Recommended pneumatic staplers

IMPORTANT

To install Maibec em+® siding, do not use nails with pneumatic tools. Use 2" (51 mm) length, 7/16" (11 mm) crown, 16 gauge, resin-coated stainless steel SUS 304 staples with a tool with adjustable depth.

Recommended pneumatic staplers compatible with the Maibec em+® stapler guide:

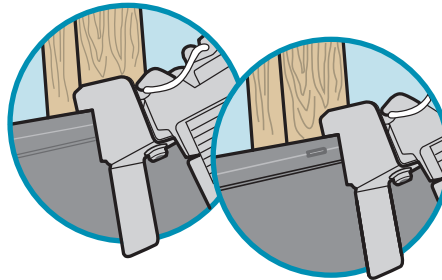

- HITACHI™* (N5008 AC 1" and AC 2")
- MAKITA™* (AT1150A)
- SENCO™* (SNS41) and discontinued models (SNS50XP, SNS45XP, SNS44XP)

Other recommended pneumatic staplers NOT compatible with the Maibec em+® stapler guide:

- DEWALT™* (D51430)
- DUO-FAST™* (SM7664, MS7664)
- FORESTO™* (N851)
- NIKEMAT™* (M50, M50/65)
- OMER™* (M2.65)
- PORTER-CABLE™* (MS200)
- SENCO™* (SNS200XP, SNS200XP-BST)
- SPOTNAILS™* (XS6550)

The stapler guide makes installing Maibec em+® siding fast and easy**

- Ensures constant positioning along the fastening line
- Guarantees the desired angle when installing staples
- Facilitates the required 3/4" spacing between staples

Maibec regular siding – Recommended pneumatic nailers

Recommended nailers to install Maibec regular siding with not stained hot-dipped galvanized nails:

- BOSTITCH® N66C1
- HITACHI™ MV65AH2
- MAKITA™ AN611
- PRIME CN565A
- SENCO™ SCN49XP

NAILS IN COIL CAN'T BE USED TO INSTALL MAIBEC EM+® SIDING.
